

A Grassy Field

*(music by David Francis; from **BARK!**, the musical, 2005)*

Hold me, one last time
in your loving arms, my friend
kiss me, master, kind
for time and fate we cannot bend
know that where I go, I will wait for you
until you've crossed that sea of blue
where we'll both run on legs made new
and jump as pups and children do
in a grassy field that never ends

Hold me, gently near
these old eyes can't see your smile
kiss me with a tear
I know I've walked my final mile
I am not afraid to softly fly away
and pr
inside my heart until that day
when we forever young will play
in a grassy field that never ends

Hold me
kiss me as I close my eyes

I am not afraid to softly fly away
and press these tender words you say
inside my heart until that day
when we forever young will play
in a grassy field that never ends

Hold me as I die
kiss me as I close my eyes
